Self Definition

I am open minded, I like resolving problems that I encounter, I like teamwork and I find myself comfortable around people. I am passionate about the world of programming and I love to learn new things
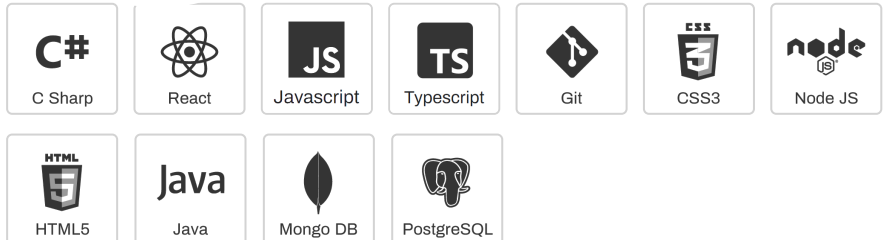

Strength

I am experienced in React and C#, with a proficiency in working with various APIs. My skills include problem-solving, effective communication with both technical and non-technical side, and collaborative work within a team. I have a strong aptitude for learning new technologies, taking on challenges, and I am truly passionate about being a programmer

Mentor Opinion

"Michał is skillfull job ready student, eager to learn and grow. During our cooperation he managed to deliver on time and write high quality code."

— *Dominik Starzyk, mentor*
